

Protect the Rideau River

Reduce Urban Stormwater Pollution by
Planting Native Trees

Trees slow the flow of stormwater that helps reduce pollution to the Rideau River.

Choose these native trees to ensure longevity, and drought and pest resistance.

- Butternut
- Elm (Hybrids)
- Bitternut
- Red and Swamp Oak
- Yellow and Paper Birch
- Dogwood
- Linden
- Red and Sugar Maple
- Flowering Crabapple
- Ironwood
- Hackberry

Trees also provide shade and reduce home energy costs.

The Town of Smiths Falls does NOT support the planting of:

- Willows
- Poplar
- Silver Maple
- Manitoba Maples
